Processed: Awaiting Police Verification

Description: On the night of 10th August 2025, unidentified burglars broke into the storage warehouse of Prime Electronics Ltd. The intruders gained access by breaking the rear shutter and disabling the CCTV system before entering. Approximately 120 high-value electronic items, including laptops and smartphones, were stolen from the facility. The warehouse staff discovered the incident the next morning and immediately filed an FIR with the local police station. Police investigations are ongoing, and forensic teams have collected fingerprints and security footage from nearby premises. The loss has disrupted client deliveries and caused reputational concerns for the insured company.

Address 2:
